EXPERIENCE

Tufts Security and Privacy Lab SOMERVILLE, MA

Jun 2025 – Present

Research Assistant

- Interviewed PSIRT teams about vulnerability prioritization and the CVSS disparities between enterprise and third-party scoring. Performed a Python web-scrape to gather materials for a gray literature search on the subject.
- Coded short answer responses from a survey concerned with informed consent protocols for connected medical devices; co-authored systems-privacy research published in *CHI 2026*.

Connecticut Judicial Branch HARTFORD, CT

May 2024 – Aug 2024

IT Intern

- Used HTML and CSS to build an interactive and dynamic public webpage for the DEI department.
- Exposure to state-level infrastructure risk analysis and incident response.

ENGINEERING PROJECTS

Containerized Home Network Infrastructure

Jan 2023 – Present

- Used Docker and Portainer on a Raspberry Pi to connect non-Apple approved devices to a Apple Home network. Added WireGuard VPN, and AdGuard DNS on the Raspberry Pi.
- Used REST APIs to allow easy updates to the smart home system and connect health data.

Low-Level Systems & Network Software

Sep 2025 – Jan 2026

- Engineered an HTTPS proxy server to make custom modifications with an LLM to secure web browsing
- Built a concurrent TCP-based chat server and client code in C.
- Designed a secure communication script in Python using AES-256-CBC encryption with message authentication verification via SHA-256 HMAC.
- Worked with the xv6 operating system architecture in C, implementing new system calls, and investigating virtual memory mapping, and file system abstractions.

Java Web Server Framework

Jan 2025

- Used the Model, View, Controller framework with Java, and SQLite mimicing Ruby on Rails to build a resilient and stable book database.

TECHNICAL SKILLS

Languages & Protocols: C · C++ · C# · Python · Assembly · HTML · CSS · TCP/IP · HTTP · REST APIs · Java

Frameworks & Tools: Docker · Linux · Git · WireGuard · Wireshark · Portainer · React Native · Figma · SQL

Core Strengths: Operating Systems · Networking · Cybersecurity · Software Engineering

EDUCATION

Tufts University MEDFORD, MA

Sep 2021 – May 2026

- M.S. in Computer Science, B.A. in Philosophy (Computer Science Minor) — GPA: 3.9
- Teaching Assistant for *Computation Theory*; mentored 50+ students in formal languages, automata, and abstract problem-solving.

LEADERSHIP & ACTIVITIES

Varsity Men's Rowing & Club Ice Hockey TUFTS UNIVERSITY

Sep 2021 – May 2026

- Elected captain of both programs, managing logistics for 50+ athletes.
- Acted as the primary bridge between athletes and university athletic directors for scheduling, facility feedback, and performance milestones.
